2019 INTRODUCTION —— 展会介绍

The prediction of edible oil in China for the couple of years. 有机健康油在中国未来的发展趋势

With the increase in per capita income, the total consumption of edible vegetable oil in China will continue to increase from the next decade. It is predicted that from the total amount, the vegetable oil consumed per capita in 2026 will reach about 34 million tons. At the same time, with the popularization of healthy consumption concepts, consumers prefer high-quality, healthy edible vegetable oils such as olive oil and grape seed oil. As consumer demand becomes more diversified, the proportion of consumption of small varieties will increase. Including popular oil - linseed oil, sunflower oil and more.

随着人均收入水平的提升,从未来十年来看,中国食用植物油消费总量会继续增加。据预测,从总量来看,2026年 人均食用的植物油会达到3400万吨左右。同时,随着健康消费理念普及,消费者更加偏好优质、健康的食用植物 油、如橄榄油、葡萄籽油。随着消费需求日益多元化、小品种消费占比会呈增加趋势。包括现在流行的亚麻籽油、葵 花籽油等。
